bankmark is an internationally operating, award-winning high-tech startup specialized in data generation and big data benchmarking. We are currently looking for a working student supporting our team.

Working Student Web Design/ Programming

Your Responsibilies

- Design and implementation of our new web presence
- Design of landing pages for events
- Integration of a customer portal
- Integration of a tech blog
- Selection and integration of a knowledge base system for the documentation of our products
- Integration of web-based versions of our products

Your Profile

- Currently pursuing a bachelor's or master's degree in web design or media design or a related technical field
- Successful design and implementation of websites
- Proficiency regarding current content management systems and JavaScript libraries
- Understanding of cross-browser compatibility and separation of content and layout
- Keen sense for functional design and usability
- Good team spirit and readiness for action
- High proficiency in spoken and written English and German

What we offer

- Being part of our young, dynamic team with agile development processes
- Flexible working hours considering exams and semester breaks
- Possibility for home office

Are you ready to join bankmark? We are looking forward to receiving your application. Your application package should contain a cover letter, a tabular CV, copies of the obtained high school degree, university marks and (if available) your references from former employers (e.g., internships). Please send your application to career@bankmark.de
